ABOUT THIS COURSE
In recent years, there has been an increasing demand for learning Spanish and an overwhelming interest in this language and culture has developed. Statistics show that in years to come, Spanish will become essential to the English speaking population.

This in turn, has caused a need for many people to find fast and effective ways to learn this language.

This Conversational Spanish course will meet your highest expectations.

This course uses the natural method of language-learning. The student will learn Spanish the same way one learns their natural language as a child - by hearing the language and then repeating what is heard.

The main focus of the course is to develop conversation skills: reading, speaking, writing and listening comprehension

We recommend that students have a Laptop Computer and Internet Connection

COURSE PRESENTATION:
This course uses the natural method of language-learning. The student will learn Creole the same way one learns their natural language as a child - by hearing the language and then repeating what is heard.
The main focus of the course is to develop conversation skills: reading, speaking, writing and listening comprehension. Grammar will be taught and discussed but will not be the main focus of this course.
New vocabulary and phrases will be introduced with the use of dialogues, interviews, reading passages, letters, brief newspaper articles, questionnaires, photographs, maps and other means relating to everyday situations relevant to the experiences of today's students.
