YOUR CAREER STARTS HERE!

ACCOUNTING

The accounting programme is designed for students preparing for careers in public, private, and government accounting. The curriculum and related courses are designed to provide students with the accounting background necessary for understanding the broad operational aspects of a business organization, as well as an in-depth understanding of accounting theory and concepts, preparation and interpretation of financial statements, and techniques of financial analysis.

The Associates Degree in Accounts program, requires the satisfactory completion of the specified curriculum, because in business, the numbers tell the story and nobody understands the numbers better than an accountant. That's the bottom line. If you have an aptitude for numbers, enjoy problem solving and want a financially rewarding career, accounting is an excellent field for you.

PROGRAMME GOAL/OBJECTIVES:

To provide prospective accounting and finance students with a body of knowledge which will;

Increase their employment opportunities;

Prepare them for careers in the field of accountancy, Provide them with a qualification which will enable them to progress to supervisory positions at a later stage in their careers.
